A BUTTERFLY'S JOURNEY

Spring is an exciting season for new beginnings! The butterfly symbolizes uniqueness, the beauty of change in its own time and continued development. To commemorate Autism Acceptance Month in April, paper butterflies will be available to display for businesses that would like to participate in celebrating families affected by autism.

Across the state, these paper butterflies will take flight because of caring individuals like you who want to support this worthy cause.

Simply respond by completing the order form and we will send paper butterflies for display on a special wall in your place of business. With a \$1 donation, supporters can proudly place a paper butterfly with their name.
